### ***Amendment***

1. This office action is in response to applicant's amendment (paper no. 5) dated 6-6-02 and this action is final.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 11-12 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claim 11 contains the following new matter in the claim language when referring to the insulating layer of the invention: "...to electrically insulate the winding from direct contact with the body...". The specification does not disclose a fishing hook with the characteristics mentioned above.

Claim 12 depends from rejected claim 11 and includes all of the limitations of claim 11 thereby rendering this claim rejected under 35 U.S.C. 112, first paragraph.

Claim 13 is rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled
